

28 OCT 1963

MEMORANDUM FOR: Deputy Director of Central Intelligence
THROUGH: Chief, Collection Guidance Staff
SUBJECT: Comments on CGS Paper re Overhead
Reconnaissance Program

1. DD/S&T has reviewed the two page listing of overhead reconnaissance vehicles submitted to you by the Collection Guidance Staff, DD/I. Minor corrections have been made in the "Remarks" column of the sheet containing information on the Satellite Program.

2. It is our understanding that this listing of overhead reconnaissance vehicles and their capabilities was prepared by CGS/DD/I for their own purposes based on information requested from and furnished by representatives of OSA and NPIC. Upon the completion of the report, it was viewed by CGS to be perhaps of value to you as a ready reference document which you might find of considerable use. We agree with their reasoning.

3. Representatives of CGS and the DD/S&T staff have used the opportunity afforded by this matter to establish a working procedure to insure that any future informal reports to you bearing on matters of joint interest indicate that both organizations participated in the preparation and support of the information submitted.
